WHEELCHAIR TENNIS

One of the fastest growing wheelchair sports in the world, **wheelchair tennis** is played on a standard tennis court in the same way as able-bodied tennis, with the only exception being that a wheelchair tennis player is allowed two bounces of the ball.

Wheelchair tennis has been part of the Paralympic Games since 1992 and has been played at all four Grand Slams since 2007. Wheelchair tennis is one of the only sports that allows for inter-abled competition.
